11. Description of proposed works.
8" well (see well log of existing well drilled by Phelps Pump and Equipment Co.)  (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)
drilled 12-3-63 together with various pipes to the points of distribution.  (State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.)
12. Estimated cost of works \$10,000.00
13. Estimated time required to construct works one year
14. Remarks This existing well will be tied into a distribution system connected
to a proposed well to provide the amount of water necessary to irrigate the proposed golf course.

Las Vegas, Nevada  APPROVAL OF STATE ENGINEER
·
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the place and manner of use of the waters of an underground source as heretofore granted under Permit 4374. Certificate 2416 is issued subject to the terms and conditions imposed in said Permit 4374. Certificate 2416 and with the understanding that no other rights on the source will be affected by the change proposed herein. A meter must be installed in the discharge pipe line, near the point of diversion, and accurate measurements must be kept of water placed
to beneficial use. It is understood that this right must allow for a
reasonable lowering of the static water level. The well shall be equipped
with a 2minch opening and an air line for measuring depth to water. If
the well is flowing, a valve must be installed and maintained to prevent
waste. This source is located within an area designated by the State
Engineer pursuant to NRS 534.040; therefore, the State retains the right
to regulate the use of the water under this proposed change at any and all times.  The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
to exceed 0.705 cubic feet per second , but not to exceed
299 acre-feet per season.
Actual construction work shall begin on or before
Proof of commencement of work shall be filed before February. 27, 1966.
Work must be prosecuted with reasonable diligence and be completed on or before January 27, 1967
Proof of completion of work shall be filed before February 27, 1967,
Application of water to beneficial use shall be made on or before
Proof of the application of water to beneficial use shall be filed on or before February 27, 1968
Map in support of proof of beneficial use shall be filed on or before February 27, 1968  WAR 7 1966
